Wildwood Road Drainage Improvements and Road Reconstruction

The Town of Fort Erie has initiated engineering design for the Wildwood Road Reconstruction Project. Wildwood Road is a rural road located in the south western portion of the Town of Fort Erie near the shores of Lake Erie. The construction project will consist of full road reconstruction of Wildwood Road from Point Abino Rd S to its terminations including new ditches and driveway culvert to improve local drainage conditions.

Public consultation of the proposed design is an important component of the project. Public consultation for Wildwood Road will be conducted online through the website found below. This online viewing is being held to provide interested parties with an opportunity to review the design and construction plans. This is a pre-approved Schedule A+ Municipal Class Environmental Assessment (MCEA) project. Those who wish to comment on the project can do so by completing the online survey or by contacting the Project Team. The design drawings will be available for viewing and comment from:

Thursday December 08th, 2022 to Thursday December 22th, 2022

at the following website:

letstalk.forterie.ca

Select: **Wildwood Road Drainage Improvements**

If you would like to learn more about the project and are unable view the online PIC, please contact:
