Walden Boulevard Upgrade Project

The Town of Fort Erie has initiated engineering design for the Walden Boulevard Upgrade project. The Walden Boulevard project area extends 200m on Murdock Avenue from Dipietro Street to Walden Boulevard and 400m on Walden Boulevard from Murdock Avenue to Concession Road.

The scope of work for this project includes the full reconstruction and upgrade of the existing road section to an urban cross-section including installation of Watermain, Sanitary Sewer, storm sewer infrastructure, new sidewalks on the Southside of the project limits and concrete curb and gutter.

The timing of the project is driven by the aging infrastructure and the ongoing and planned development in the surrounding area, with construction slated for late summer 2026.

Public consultation of the proposed design and getting feedback is an important component of the project. Public consultation for the Walden Boulevard Upgrade will be conducted online through the Town's website. This online viewing is being held to provide interested parties with an opportunity to review the design and construction plans. This is a pre-approved Schedule A+ Municipal Class Environmental Assessment (MCEA) project. Those who wish to comment on the project will have an opportunity to contact the Project Team and discuss issues related to the project. The design drawings will be available for viewing and comment from:

Monday, May 11th, 2026 to Friday, May 22nd, 2026

at the following website:
