

Notice of Public Information Centre

Bowen Road Watermain Replacement

The Town of Fort Erie has initiated engineering design for the Bowen Road Watermain Replacement Project. Bowen Road is a rural road located in the north end of the Bridgeburg area on the east side of Town of Fort Erie along the shores of the Niagara River. The project limits begin at the intersection of Bowen Road and Central Ave and continue east to the intersection of Bowen Road and Niagara Boulevard. The project consists of full road reconstruction, watermain and service replacement and sanitary sewer and lateral replacement.

Public consultation of the proposed design is an important component of the project. As part of the public consultation for this project, a formal Public Information Centre (PIC) is being planned to provide interested parties with an opportunity to provide input. This is a preapproved Schedule A+ Municipal Class Environmental Assessment (MCEA) project. Those attending the PIC will have an opportunity to meet with the Project Team and discuss issues related to the project. The PIC will take place on:

Monday August 25th, 2025 to Friday September 5th, 2025

at the following website:
